

LOREDANA'S BRIDES

AT MILLA'S
FASHION STUDIO

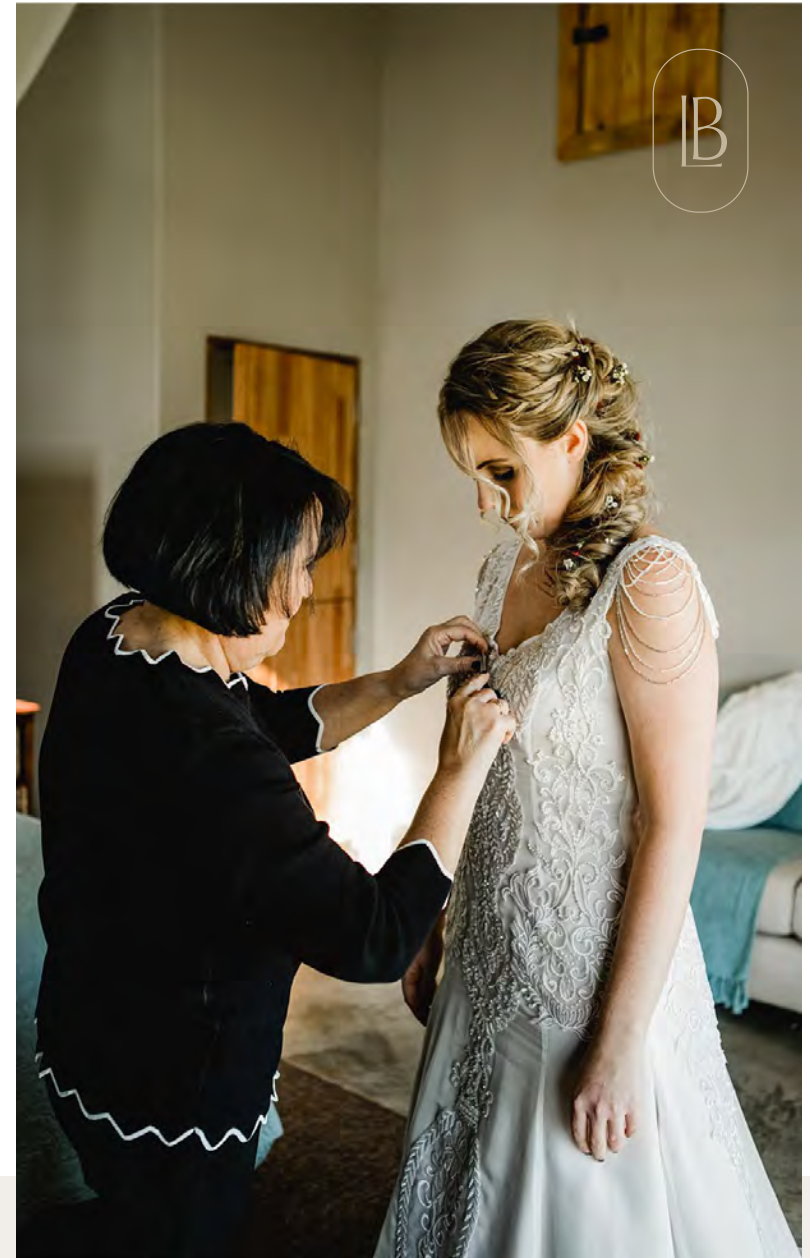

ABOUT

I have been in the fashion industry for 38 years and opened my first bridal studio 33 years ago.

Both of my parents immigrated to South Africa from Italy and worked in the textile industry. With textiles and sewing playing a big part in my family, I started making clothes for myself at age 14. I qualified as a fashion designer in 1983, where I worked in the industry for several years. During this time I would make wedding gowns for family and friends which pushed me to follow my passion and open my own bridal studio.

Since then I have made numerous wedding gowns, mother-of-the-bride/groom outfits, and bridesmaid dresses. I also specialise in matric dance and special occasion wear.

I love making my clients dreams come true on their special day. The more intricate or challenging the design, the better.
